

MAINE REVENUE SERVICES
(FORMERLY BUREAU OF TAXATION)
SALES/EXCISE TAX DIVISION
RULE NO. 313

CLASSIFIED PERMITS

SUMMARY: Establishes a system for the administration of the classified permit method of determining exempt sales pursuant to 36 M.R.S.A., Sec. 1951.

.01 Scope of permit.

Classified permits will be used only to establish the percentage of sales of exempt commodities. Other exemptions have not been shown to bear a sufficiently consistent month-to-month relationship to sales to warrant the use of a percentage figure.

.02 Application for permit.

A registered retailer who desires a classified permit shall apply to the Audit Division of the Bureau of Taxation on a form provided by that division. The application for shall require that the applicant provide an accurate record of the sales of taxable and non-taxable items during a typical sales period of not less than three days.

.03 Issuance of permits.

A. Temporary Classified Permit. To permit the retailer to take advantage promptly of the simplified reporting made possible by classified permit, a temporary permit will be issued on the basis of the Bureau's review of the retailer's application. The percentage authorized by the temporary permit may be used for reporting purposes in lieu of an actual breakdown of sales into taxable and nontaxable commodities. The temporary permit will be subject to change upon audit by the Bureau of Taxation. If use of the temporary permit is found upon audit to result in an inaccurate estimate of tax liability, an assessment will be made for any deficiency or a refund for any overpayment resulting from such inaccuracy.

B. Permanent Classified Permit. A permanent classified permit may be issued, upon written consent of the retailer, after the business of the temporary permit holder has been audited by the Bureau of Taxation. The permit percentage will be based upon this audit and will be subject to change only if the retailer makes a change in this product line which significantly alters the relationship of taxable sales to total sales. The holder of a permanent classified permit shall promptly report any such change to the Bureau of Taxation. While the permanent classified permit is in effect, the retailer's liability, insofar as it depends upon the breakdown of sales between taxable and tax exempt commodities, will be limited by the percentage granted by the permit. Thus, no deficiency assessment or credit will be based upon any variance between the permanent percentage breakdown and the actual breakdown, except when a change in the

retailer's product line has not been reported, or where the over collection of tax is attributable to exempt or nontaxable transactions or erroneous computations.

.04 Termination of permits.

A. Abandonment. A retailer may, at any time, abandon the use of a temporary or permanent classified permit upon written notice to the Audit Division, Bureau of Taxation. The permit will be deemed to be in full force until receipt by the Audit Division of the written notice.

B. Revocation. A temporary or permanent classified permit may be revoked at any time by the Audit Division upon written notice to the retailer. The issuance of a classified permit supersedes and voids any classified permit previously issued.

C. Transfer. A classified permit is not transferable upon the sale of the business to which it was issued. If the new owner desires to report on the classified permit basis, he shall obtain a new classified permit in his own name.

BASIS: 36 M.R.S.A., Sec. 1951 provides that the State Tax Assessor shall issue a classified permit establishing the percentage of exempt sales. This rule establishes a system for the administration of the classified permit method of reporting sales tax liability.
